Helping Organisation for People, Environment and Animal Trust (HOPE & Animal Trust) is trying to help animals wherever possible. Our efforts earlier helped animals in Varanasi, Uttar Pradesh. Now this year we extended help to Aurangabad in Maharashtra. In Ranchi we continued maintaining zero human deaths due to Rabies. Varanasi we have rescued and treated thousands of animals including large animals, renovated new animal facility for the dogs in the City of Ganges. This year, we have initiated animal welfare activities in Aurangabad and received local donation and grant from abroad to build Animal Shelter and Education wing. The construction of the work has began and completed partially this year, the work will be carried out next year as well.

Ranchi – Animal Birth Control, Surveillance and Education

Dog catching work is tough, this is highly skilled Job and one has to face many hurdles, the biggest is weather conditions, everywhere. We have completed one more year of achieving zero human deaths in Ranchi city. Every month, a new challenge for the field team, they have to be out early and work long hours to complete the daily target. Rain, winter and summer each of these seasons goes extreme for couple of months, hence lot of struggle for the team to keep up the numbers.

This year Total of 11,594 dogs have been helped out of which 9806 dogs have been operated (Male – 5080 and Females – 4726) 1598 have been vaccinated. 106 dogs have been treated successfully and released back, 84 dogs were euthanized. 77,898 dogs sterilized since the work started in Ranchi in 2008.
1,01,915 School students and 3631 Teachers, 2344 Children and 3207 adults in the community were also educated and bite prevention, rabies and being kind to animals along with importance of sterilization and few other messages on general animal welfare also given. 90% of Ranchi Schools have been covered.
As you all know that **Varanasi for Animals** is the Project name for Varanasi chapter of **HOPE and Animal Trust**. Varanasi Municipal Corporation has not signed MoU and hence we continued helping local villages with the help of grants that we received. Entire program was sponsored by Help Animals India, a US based Animal Welfare Organisation.

Help Animals India has fully adopted the Varanasi Project due to which we are not dependent on Municipal Grants. While we help hundreds of animals rescuing, we continued our efforts in controlling the population in the village area.

Several such cases have been helped; every case tells one story,
**Varanasi – Education and awareness**

We covered more than 100 schools and reached out to more than 50,000 children and community members. Our message is simple, help animals, save lives and take precaution, save being beaten.

**We got CC TV Camera fixed at our Hospital**

CC TV Camera in VFA Center

**Aurangabad- Aurangabad for Animals – New Chapter**

Now that we are opening up more projects in different parts of the country, this year it is Aurangabad in Maharashtra. Looking at our honest and hard work for the animals in Ranchi and Varanasi, individual donors and funding agencies are expecting more from us, they want us to replicate the system that we have established in both Ranchi and Varanasi and help more animals where needed.
This entire year, construction work was carried out and finally we are now having a facility and soon animal welfare activities with a message to eco protection and awareness programs will be conducted.

While we were building the multipurpose facility for animal welfare and eco protection, we continued our efforts with Government to get support. Regular meetings with various animal loving individuals, groups and also national as well as International donor agencies are being approach for support.
Aurangabad Municipal Corporation is one of them who responded positively. They have taken out Notice for the tender on Animal Birth Control Program in the city and we have applied for the same. So far, there has not been any progress but we are hoping that things will work out.

After working in Ranchi and Varanasi for over 15 years, we developed a new facility in Aurangabad. Using our past experience, where all our efforts took long time and yet, there are complaints on all issues from every citizen across our project site. Hence we decided to work differently. Education and Awareness is the key for any change but we have to make sure that the message makes an impact by using innovative methods.

The plan is to create a kind of Nature Park, bring school children where they will be spending almost whole day in doing various activities, like

- Film on Animal welfare
- Games on Animal theme
- Story / experience sharing on animals
- Do's and Don'ts with the Animals
- Promoting Veganism
Playing with dogs and other rescued animals
Promote / encourage children for adoptions of dogs

We are also developing nursery so that when small school going children visits, the plan is to give them a sapling each to push tree plantation.

3. Issues for 2019 – 20

➤ Continue Animal Birth Control Program in Ranchi and Varanasi.
➤ Rescue and Treatment for the diseased/ ill treated animals in Ranchi, Varanasi and Aurangabad.
➤ Make efforts Continue Education and Awareness Activities in Ranchi, Varanasi and Aurangabad.
➤ Make efforts to work with Varanasi and Aurangabad Municipal Corporation for Rescue and Spay/ Neuter activities.

4. Funding and support –

Our Animal Welfare Activities were supported by
➤ The Mayhew Animal Home
➤ Help Animals India
➤ Capt. Amit Basu
➤ Mr Harcharan Singh
➤ Ranchi Municipal Corporation
➤ Mission Rabies / Worldwide Veterinary Service – UK
